

Dear Tracey,

You were **INCREDIBLE** at the Yorkton, Zajac Golf Tournament at the Richmond Country Club! You exceeded my wildest expectations by a loooooong shot. I had told everyone how sensational you were as Marilyn and Cher, but what I didn't know was how well you interact with the audience in character. You were the consummate professional in talking to the starry eyed (should I say glassy-eyed) guests that night. Your skill in audience participation is exceptional. You are in complete control and everyone knows it while you're performing.

I love it when I can stand back and watch a professional doing what they do. There's nothing more pleasurable for me to watch talent, at the top of their game, control 300 people, have them on a leash, manipulate them to do whatever you want, and then on top of all that, be so nice to everyone. Believe me, people who are as talented as you are not usually so accommodating and such a pleasure to work with.

Thank you, Tracey. I can assure you that I will call again. I am booked for many occasions where I wish I had someone I could bring with me, just to spice things up a bit. I look forward to working together. You are truly a marvel.

Best personal regards,

  
Rick Honey
